

Forum 27 – 18 August 2022

Koombana Bay Sailing Club, Bunbury

27TH ROAD TRANSPORT SAFETY FORUM

Forum 27 was our first regional forum of 2022; 8 presenters provided thought-provoking and informative content that was well received by the forum participants. Some of the forum highlights included; Graeme Franklin, Director of Safety Solutions WA’s presentation on the changes to the Work Health and Safety Act which impacts us all and Rick Post, Managing Director of Centrewest Insurance’s presentation on Managing Risks in the Transport Industry which urged us all to check that our plant and equipment’s current value is suitably covered.

Paul McGuire, lead trainer from Nationwide Training covered the latest on Chain of Responsibility (CoR).

Niomi Hurley from Get Up and Grow presented on The Importance of Psychological Safety and touched on risk management and duty of care amongst other valuable areas.

Graeme Franklin from Safety Solutions presented on the changes to WHS Compliance.

This topic was educational, insightful and interesting.

Robert Barnsley from Main Roads share some information on the improvements and repairs that they are undertaking and have completed in the Bunbury area.

Mark Rodrigues from MT Data gave a presentation on Telematics in the Road Transport Industry showing that there is technology out there to assist in so many ways.

Nick Fox from Alcolizer Technology presented on Managing Alcohol and Drug Abuse in the Workplace and shared some interesting statistics.

Christine Smith from Injury Matters presented on Road Trauma Support and spoke of the many ways that RTS can assist people after a road trauma. [unfortunately, Christine's presentation was not able to be filmed as her presentation was online]

Our last presenter, Rick Post from Centrewest Insurance Brokers, talked on managing risks in the Transport Industry. The day concluded after an update from TRANSFAWEWA's Rob Sharpe on the progress that's been made in delivering WA's dedicated Safety Truck iNSTRUCKTA!

The amazing team from Lomax Media was present to film the presentations, they have done an excellent job with filming and the footage will be turned into webinars in the coming weeks.

Photographs were taken by Henderson Photographics in Bunbury; Sarah did a fantastic job capturing the atmosphere of the forum.

TRANSAFE WA could not provide our Road Transport Industry Safety Forums without the support of our forum sponsors. We were fortunate to have five companies sponsor this event; Alcolizer, Nationwide Training, Injury Matters, MTData and Southern Ports.
